What's on the Menu at Your Jail? How to Handle Religious, Medical, and Other Special Diets.

Instructor:
Gerard Horgan, CJM - Retired Special Sheriff/Superintendent

In jails across America, we have been faced with requests for special diets from the men and women in our custody. This training will discuss practices that will ensure that offenders are not kept from practicing their religion and that will minimize your legal exposure. We will also discuss strategies to ensure that your kitchen is not overrun by special diets.
