Dear AJA Member,

The novel coronavirus, or COVID-19, is being monitored by AJA leadership as it pertains to the impact it might have on the 39th Annual AJA Conference & Jail Expo. As of today, we are moving forward, as planned, with the event.

Our decision is based on guidance from the U.S. Centers for Disease Control and Prevention (CDC). As of today, the CDC does not have travel restrictions within the United States. For the most updated information, please refer to the Centers for Disease Control and Prevention.

We have been in touch with our travel partners and with the Gaylord Rockies to help ensure the safety and health of our conference attendees, our exhibitors, and our staff.

This is an evolving situation, and AJA will continue to monitor guidance provided by the CDC and will communicate this to our membership on a regular basis through our communications channels, including iConnect and our website.
